Two Buffalo projects were named Thursday as finalists for the 2017 Awards for Excellence in Development from the Urban Land Institute's New York chapter.

Uniland Development Co.'s Delaware North Building at 250 Delaware Avenue is one of two finalists for the chapter's Excellence in Mixed-Use Development award.

The illumination of grain elevator silos on the Outer Harbor, by Foit-Albert Associates and Erie Canal Harbor Development Corp., is one of three finalists for its Excellence in Civic Space award.

In all, 19 projects will compete for honors in seven categories within residential, commercial, mixed-use and civic space development. Besides the two in Buffalo and one in Rochester, all are from New York City. The winners will be announced on April 3.
